AN ALLERGY TREATMENT THAT WORKS!

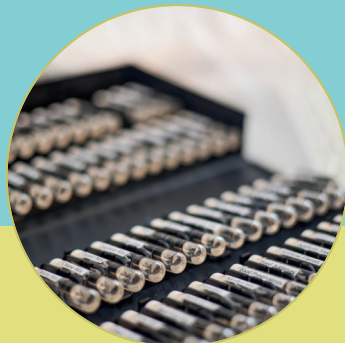

1

WHAT IS SAAT?

Soliman Auricular Allergy Treatment An allergy is an exaggerated response of the immune system. The SAAT treatment “reprograms” the immune system to stop overreacting to allergens, thus eliminating the negative response.

2

WHAT ALLERGIES CAN IT TREAT?

Food: gluten/wheat, soy, dairy, corn, eggs, sugar, meat (Alpha-gal), nuts, fruits, vegetables, shellfish, preservatives, and more.
Environmental: animal dander, dust, molds, chemicals, pollens, trees, grasses, weeds, and more.

3

HOW DOES IT WORK?

It is a specialized yet simple acupuncture treatment where one needle placed in the ear can drastically **reduce allergy symptoms by 80-95%**.

4

WHAT IS THE PROCESS?

Step 1: Identify the Allergen(s)
We will confirm your allergies through our bio-energetic testing.

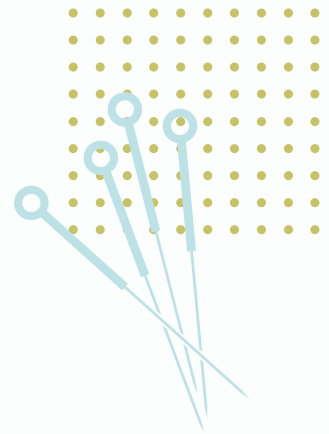

Step 2: Auricular Allergy Acupuncture
Once the allergen(s) and reactive point(s) in the ear are confirmed, the treatment needle is placed in the ear.
